

# Metal Roof and Wall Colors

COMMERCIAL, INDUSTRIAL, AND ARCHITECTURAL PRODUCTS

## PVDF Fluorocarbon Paint Finish

26 Gauge, Kynar 500®/Hylar 5000 Paint Finish

Linen White (81)<sup>1,2</sup>

Khaki (88)<sup>1,3</sup>

Classic Green (66)<sup>3</sup>

Zinc Grey (29)<sup>3</sup>

Burnished Slate (49)<sup>3</sup>

Ocean Blue (35)<sup>3</sup>

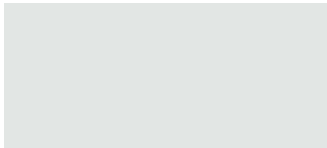

Patriot Red (73)<sup>1,3</sup>

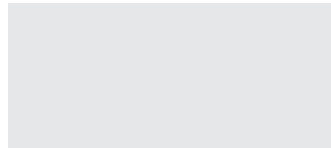

- <sup>1</sup> Energy Star Certified Color
- <sup>2</sup> Meets Cool Roof steep slope and low slope solar reflectance criteria
- <sup>3</sup> Meets Cool Roof steep slope solar reflectance criteria

## MS Colorfast45™ Paint Finish

26 Gauge, SMP Paint Finish

Polar White (80)<sup>1</sup>

White (30)<sup>1</sup>

Light Stone (63)<sup>1</sup>

Mocha Tan (22)

Cocoa Brown (12)

Burgundy (15)

Patriot Red (73)<sup>1</sup>

Brick Red (24)<sup>1</sup>

Burnished Slate (49)

Ocean Blue (35)

Hawaiian Blue (70)

Charcoal (17)

Ash Gray (25)

Forest Green (26)

Patina Green (58)<sup>1</sup>

- <sup>1</sup> Energy Star Certified Color

# PRODUCT SOLUTION CHART

- For Image II, refer to Image II brochure.
- 12" Soffit Panel is available in .032 aluminum with Linen White PVDF finish in both perforated and unperforated.
- Galvalume® is a registered trademark of Bethlehem Steel Corporation.
- \*ACG: Acrylic Coated Galvalume.®

● Standard colors are available in any quantity.

■ Available in limited standard colors.

<sup>1</sup> Vertical Seam: 16" and 18" must be striated

Other gauges are available. Please inquire. Not all colors and gauges are stocked at all branches. Color selections are close representations but are limited by processing and viewing conditions. Actual samples are available by request. For all specific warranty, application, installation, and technical information regarding these products, contact your representative. Additional profiles are available. Not all profiles are stocked at all branches. Additional cost and lead-time is possible with certain profiles. Image II flat pan profile is available only from Jacksonville branch. Additional lead time may apply. Please inquire.

## PAINT SYSTEMS

Metal Sales uses high quality paint systems designed to provide long term performance and protection. Each coating is formulated with thoroughly researched, tested and field proven pretreatments, primers, resins, and pigments that can meet your standard and performance requirements.

### PVDF (Fluorocarbon)

This paint system combines ceramic pigmentation with polyvinylidene fluoride for a superior, long-lasting performance. PVDF finishes are respected for their durability, resistance to chalking and fading, chemical resistance, and color

retention. Please note: PVDF finishes meet both Kynar 500 and Hylar 5000 specifications; Kynar and Hylar are produced under license from Alf Atochem North America, Inc. and Ausimont, respectively.

### MS Colorfast45™

This is a thermoset coating system composed of polyester resin which has been modified with a silicone resin. Much like PVDF finish, the MS Colorfast45 finish offers good protection to the elements with special consideration to chalk and fade resistance, durability, and chemical resistance.

When installed properly, this product will help reduce energy costs. Actual savings will vary based on geographical location and individual building characteristics. Consult your product manufacturer, roofing contractor, or call 1-888-STAR-YES (1-888-782-7937) for more information.
